BRAINERD, MINN., FRIDAY, MAY 24, 1907

PRICE TWO CENTS

BANE'S

ONLY A FEW EXCUSED

Special Venire of Talesmen in Court at Boise, Ida.

LITTLE PROGRESS IS MADE

Partial Weeding Out of Talesmen and the Partial Qualification of One Juror the Net Results of the Tenth Day of the Haywood Trial.

Boise, Ida., May 24.—The net results of the tenth day of the Haywood trial were the partial weeding out of the talesmen of the second special venire entitled to statutory exemption and the partial qualification of one juror.

The sixty men of the second special venire presented themselves when court opened and when it was announced that the court would hear excuses twenty-three of the sixty marched forward. Judge Wood said that he would accept only those excuses which clearly came within the statute and when he made good his announcement the band of petitioners melted very quickly. Five petitions were flatly denied, nine were temporarily denied and six were granted. The other three petitioners did not bother to present their excuses.

Then began the attempt to fill seat No. 9 made vacant by the release of Juror Orric Cole on account of illness. The first five talesmen had opinions that would require evidence to change—one of them said his opinion would last regardless of the evidence—and they all went down on challenge from the state. Early in the examination Clarence Darrow for the defense asserted that James H. Hawley for the state was seeking to lead talesmen up to qualification by improper questioning. Judge Wood overruled his objection, but he continued to address the court. Mr. Hawley bristled and for a few moments there was a promise of a scrimmage. But the court checked the incipient row and the examination went on.

The tenth and last talesman called was Henry Curtis, a farmer, and he gave every indication of qualifying. Senator Borah led him over a long examination that showed him to be free from opinion or bias and to be quite open-minded. Just as the state passed him for cause and he went to the hands of the defense for examination, the trial was adjourned for the day.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

MAYOR ON THE STAND.

Tells of Events Connected With the Affray at Brownsburg.

Washington, May 24.—Mayor Fredrick G. Coombe of Brownsburg was the only witness before the senate committee on military affairs in the investigation of the shooting affray there on Aug. 12, last, which resulted in the discharge of the negro soldiers garrisoned at Fort Brown. After telling of incidents connected with the shooting affray and subsequent events in which he figured, the mayor was cross-examined by Senator Foraker at great length. The senator was particularly interested in a report that citizens of Brownsburg had raised \$10,000 to be offered as a reward for information leading to a discovery of the persons who did the shooting.

"There was no truth in that report," said Mayor Coombe. "It was started by an Ohio man."

Senator Foraker joined in the laughter which greeted the remark and asked the name of the man.

"I think it was Longworth, senator," replied the witness.

"His first name does not happen to be Nicholas, does it?" inquired Senator Foraker.

"I don't remember," said the mayor.

"Well, of course, you don't mean the president's son-in-law?" asked the senator.

The mayor hastened to assure the committee that it was not the Ohio congressman and after the laughter had subsided the conversation was expunged from the record.

ON MARRIAGE AND DIVORCE

Presbyterian Assembly Adopts Report of Special Committee.

Columbus, O., May 24.—The Presbyterian general assembly received and adopted the report of the special committee on marriage and divorce and adopted resolutions rejoicing in favorable results already obtained and expressing the hope of more radical reform, reaffirming deliverances of former assemblies regarding marriage and divorce and enjoining presbyteries "to enforce the standards of the church, to hold to a strict account all ministers under their care and to urge all ministers to regard the comity that should refrain from giving the sanction of our church to members of another church whose marriage is in violation of the laws of the church whose communion they have chosen."

TELEGRAPHIC BREVITIES.

Miss Lulu Glaser, the actress, and Ralph C. Herz, an actor, were married in New York Thursday.

Dr. Maurice F. Egan has accepted the post of minister to Denmark offered to him by President Roosevelt.

The installation of the new officers brought to a close the thirteenth annual session of the supreme council of the Royal Arcanum at Boston.

Mrs. Ella Farman Pratt, author of books for young people, is dead at Warner, N. H. For many years Mrs. Pratt was editor of *Wide Awake*. She was sixty-four years of age.

Probably suffering from a peculiar form of mental aberration, a woman nurse whose identity has not been disclosed, stole the four-days-old first born child of Mr. and Mrs. Erwin Glauke of Minneapolis.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the nervous system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. G. Clark & Co., Philadelphia, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

Suspected of Murder.

New York, May 24.—Henry Becker, twenty-one years old, of Manhattan, has been arrested on suspicion of having murdered Amelia, the fifteen-year-old daughter of William Staffeldt, a farmer of Elmhurst, L. I.

CAUSES A SENSATION

Russian Premier's Announcement in Parliament.

SERIOUS SITUATION EXISTS

Action of Agrarian Committee in Solving Land Problem Without Consulting Any Representative of the Government Precipitates a Crisis.

St. Petersburg, May 24.—Premier Stolypin caused a sensation in the lower house of parliament by unexpectedly announcing that a serious conflict existed between the house and the government through the agrarian committee of the house proceeding to solve the whole agrarian problem without consulting with any representative of the government. The premier ended his statement by announcing that the forcible expropriation of land could not be permitted and warned the house that the speeches exciting the peasants were beginning to cause a dangerous agitation in the provinces, which the government was determined to restrain.

The premier's entry on the scene was almost dramatic. At the close of a dull session of the house devoted to the adoption of rules or order, Premier Stolypin suddenly claimed the floor. It was after the regular hour for the adjournment of the house, but the motion of the Social Revolutionists to adjourn was defeated and amidst the closest attention the premier declared that the agrarian committee of the house had formally adopted the principle of the forcible expropriation of land without waiting to ascertain the government's attitude. It was the premier's duty, therefore, to enlighten the deputies. Fundamental principles maintained by the government had been disregarded, an openly revolutionary tone marked most of the speeches, and insult had been aimed at the government. The premier added that the agrarian programme of the committee places the various parties in the house in irreconcilable positions towards each other and towards the government. If the principle of the forcible expropriation of land was permitted to prevail a social upheaval of which history would not be able to show a parallel would be precipitated.

Caused Renewal of Apprehension.

The pronouncement of the premier has caused a renewal of the apprehensions regarding the life of the duma, but the Constitutional Democrat leaders are confident that the premier's hurried statement is in no way connected with the passage of the reactionary intrigue against both the duma and the premier which recently came to light at Tsarskoe Selo.

Joseph V. Hessen, Constitutional Democrat, is of the opinion that the suddenness with which the premier made his announcement was a matter of pure accident. He says he was familiar with the contents of this speech a month ago and that Stolypin had been awaiting a favorable opportunity to deliver it.

The Constitutional Democrats generally consider the tenor of this pronouncement to be a long step in advance over the position of the government in the last duma. It is evident that the premier intended to give voice gradually to the government's disapproval of the plan to expropriate land by force but he handled the matter so clumsily that the only effect of his speech will be to alarm the peasants and drive a majority of the Group of Toli over to the Extreme Left.

The beginning of agrarian disorders over a wide range of provinces can now be seen. The peasants are particularly restive in the provinces of Kief, Tver, Poltava, Tula, Yerkaterinovsk, Voronezh and Saratov.

The estate of Prince Serge D'oursoff, member of the lower house from Tula, has just been burned by peasants. This act was committed in revenge for the prince's conservative speeches in the duma.

IOWA MAN INDICTED.

Charged With Obtaining Money Under False Pretenses.

Centerville, Ia., May 24.—The Appanoose county grand jury has returned four indictments against one of its most prominent business men, W. G. Clark of the Clark & Peatman Investment company, charging him with obtaining money under false pretenses, obtaining property under false pretenses and securing signatures to written instruments under false pretenses. Clark's alleged frauds were conducted through misrepresentations of incumbrances of property on which loans were secured and the falsification of abstracts and public records. It is believed here that operations of this character extended over a long period of time and their amount to agree a large sum. Liabilities of the company are in the neighborhood of \$150,000 and the assets are uncertain.

The advertising car of Campbell Brothers circus is in the city today. The aggregation is billed for Brainerd June 7th.

Rev. J. E. Oslund, pastor of the Swedish Lutheran church, returned to day, having been here as a witness in the case of John Gilmer vs. the Northern Pacific railroad company.

W. C. White, of Deerwood, came down today to meet Mrs. White, who came from Milwaukee to join him in their summer home.

M. P. Orchard returned to Duluth to day, having been here as a witness in the case of John Gilmer vs. the Northern Pacific railroad company.

Don't fail to see us for bargains in houses and lots, all parts of the city. Exceptional bargains for this week only. Smith Bros., Sleeper Block. 297t6

GILMER GETS GOOD VERDICT

Jury Gives Him \$612.51 in Case Against Northern Pacific Railway Co.

SETTLES WELSH CASE ALSO

According to Stipulations the Verdict in the Gilmer Case Decides That Also

The jury brought in a verdict this afternoon in the case of Gilmer vs. N. P. Ry. giving Mr. Gilmer \$612.51 and costs. According to the stipulation of attorneys Patrick Welsh gets \$150 and costs in his case growing out of the same transaction.

The case of Gilmer vs. the Northern Pacific railroad company went to the jury shortly before noon today. Court was then adjourned until this afternoon when the case of the Potter-Casey Co. vs. M. M. Howe was taken up. The Dispatch was misinformed as to the title of the case on trial yesterday. It was John Gilmer vs. the Northern Pacific Railway Co. The error grew out of the confusion of two identical cases, one instituted by John Gilmer and the other by Patrick Welsh. By stipulation only one was tried, the verdict in one carrying judgment in the other.

It is thought that the court will hold all of this week, and may last into next.

The North Star Society will give a dance at Walker's hall, Tuesday May 28th. All are invited. Tickets 50 cents. 301t2p

HOLDING QUARTER CENTENARY

Swedish Lutheran Church Celebrating Anniversary of its Organization

FIRST SESSION THIS EVENING

The Sessions Will Last Until Sunday Night—A Pleasant Time Expected

The celebration of the 25th anniversary of the Swedish Lutheran church of this city commences tonight at the church, when Rev. A. Mattson, a former pastor of the church will preach. The services will continue tomorrow and Sunday and it is expected that all the former pastors of the church will be present. The following people arrived this afternoon to attend the meetings: Rev. and Mrs. J. A. Johnson, Rush City, Minn., Rev. F. M. Ekman, Center City, Minn., R. P. Sjolom and Rev. J. G. Hultkrans, Minneapolis; Rev. A. Mattson, Alexandria, Minn.

Beautiful Brainerd

Some pertinent paragraphs furnished by the press committees of the Civic League.

DO AND DON'T.

Northfield, Minn., is waging a campaign for civic beauty and have had the following "dos and don'ts" printed and distributed among the school children. They are very appropriate to Brainerd and are worth the while cutting out and giving to the children.

DO make your yard and street in front as pretty as possible.

DO plant or help to plant shade trees.

DO cultivate as many flowers as possible.

DO cart away or bury old tin cans or rubbish that cannot be burned.

DO pick up and destroy all loose paper, fallen branches and similar things.

DO dig up and destroy unsightly and harmful weeds.

DO pile wood neatly and keep a tidy back yard.

DON'T.

DON'T throw upon the sidewalk or into the street banana or orange skins, watermelon rinds, nut shells or any other litter.

DON'T scatter pieces of paper on the street.

DON'T mark sidewalks or buildings.

DON'T injure young trees by bending, cutting or shading them.

DON'T FAIL to help give your town a reputation for beauty and cleanliness.

The meeting of the Civic League should be well attended tonight as the support of the movement depends upon the support you give it.

To The Ladies,

Occident Flour

Pleases You,
MAY WE HEAR FROM YOU:
Box 594, Brainerd.

Notice to A. O. U. W.

All members are requested to meet at their hall at 2 o'clock Friday, May 24, to attend the funeral of Brother Ole Neime. 301t1

RESIGNS PASTORATE

Resignation was Accepted to Take Effect the First of August Next

HE WILL ATTEND SCHOOL

Delegates Were also Elected to Attend the Duluth Conference at Aitkin

There was an important meeting of the First Congregational church last night, at which time the resignation of Rev. Ernest A. Allin as pastor was presented and accepted, to take effect August 1st. This step was not taken by Mr. Allin because of any dissatisfaction with the church or he with it, but that he might devote the next year or more to study and he will attend school this winter.

The meeting also elected C. Bruhn and R. K. Whiteley to the meeting of the Duluth conference of Congregational churches, which will be held at Aitkin on June 4th and 5th.

ONE RAIL FOR TRAINS

English Inventor Solves Problem by Quelling Gravitation.

SPINNING TOP THE PRINCIPLE.

Louis Brennan Shows How Automatically Balanced Cars Can Cross Rivers on Steel Hawser—Hotel May Travel at Tremendous Speed as Sleeping Car, Says Inventor.

Railroad men in New York were greatly interested the other day in the news from London of the announcement before the Royal Society and scientific men of Louis Brennan's monorail invention, says the New York Evening World. It is said that he has solved the problem of the one rail road, and a recent demonstration before the Royal Society astounded his audience with the feats of a little model car which he has built.

He claims for his system that it will enable a train to race along at tremendous speed on a single rail; that the cars may be thirty or even forty feet in width; that practically all friction will be done away with, so that a mere fraction of the power used by locomotives today will propel his trains; that roads may be laid as rapidly as an army on the march can travel, and that passengers can be carried more safely than in the cars built upon models now in use.

Automatic stability mechanism is the secret Mr. Brennan, who is the inventor of the Brennan torpedo, has in his thirty years he has applied to the task succeeded in successfully working out. The principal is simple, being that of the spinning top, yet it seems to the observer that his car acts counter to the laws of gravitation.

At the exhibition he used a very small model, but sufficiently large to show how a car of any size will work. He caused it to run on a narrow rail about the big hall of the society at full speed. Sometimes the little vehicle was filled with ballast carelessly thrown in, and at other times it ran empty. In every case it rolled smoothly and never left the track.

Mr. Brennan says of his invention, or discovery, that cars may soon be carrying loads ten or even twenty times as heavy as those now drawn with power very much less. The vehicles may be made practically any width. A veritable hotel may be put on the rail as a sleeping car.

"The stability mechanism," Mr. Brennan says, "is carried by the car and enables it to turn the sharpest curves. If all the load of the car is suddenly shifted to one side the mechanism will correctly and instantly readjust the strain and keep the car level. The mechanism essentially consists of two flywheels driven by electric motors in opposite directions, so that the gyroscopic action and stored up energy may be utilized. The wheels are mounted on the highest class of bearings and are incased in exhausted chambers, so that journal and air friction is reduced to the minimum."

"This stone is busy a large part of the time. Not long since the stone held to a man's leg for over 100 hours, yet the man died. His life could have been saved if dependence had not been placed entirely in the stone."—Medical Brief.

A "Touching" Story.
The young lady who had sat for a crayon portrait was not altogether pleased with the result. "It looks like me, of course," she said, inspecting it doubtfully, "and yet I think there are some things about it that ought to be changed."

She suggested that the eyes should have rather more of an upward look, that the right hand should be a little less prominent, that the hair should be made more wavy and that certain changes ought to be made in the drapery.

"That would require a great deal of retouching," said the artist, "and I should have to charge you about \$10 additional."

"Oh, dear!" she exclaimed with a pout. "I shall have to give it up. Papa won't stand my 'retouching' him to that extent."

A Case In Point.

Of Sergeant Arabin, who had not a clear method of speech, it is related that he said to one criminal, "Prisoner at the bar, if ever there was a clearer case than this of a man robbing his master, this case is that case." At another time he said, "Prisoner at the bar, you have been found guilty on several indictments, and it is in my power to subject you to transportation for a period very considerably beyond the term of your natural life, but the court in its mercy will not go so far as it lawfully might go, and the sentence is that you be transported for two periods of seven years each."—London Globe.

Real Distress of Mind.

Dora—I'm in such distress of mind, and I want your advice. I am loved by three men, and I don't know which to accept. Clara—Which one has the most money? Dora—If I knew that, do you suppose I'd waste precious time running around for advice?

Something More Recent.

"What was the cause of this rumour?" asked the judge.

"Well, you see, judge," replied the policeman, "this man here and that woman there are married."

"Yes, yes, I know. But what other cause?"—Cleveland Press.

Setting Him Right.

"Er—really," began Mr. Chesty, "you have the advantage of me, sir. My memory, perhaps, is at fault, but"—

"No," interrupted Pepprey, "it isn't your memory, but your manners!"—Philadelphia Press.

Ban on Roller Skating.
The co-eds of the University of Nevada have been forbidden to roller skate, as contrary to good morals. The male students are expecting a similar order.

Wisdom alone is a science of other sciences and of itself.—Plato.

THE MADSTONE.

Valuable Because Absorbent—A Clay Pipe Makes a Good One.

Physicians are often asked whether there really is any virtue in what are called madstones. One of them declares that these stones are of value, but that they would be of more value if their limitations were understood.

"There is no particular variety of stone or substance which may be designated exclusively as the madstone," he says. "I have seen many of them, so called, and no two were of exactly the same composition, geologically considered.

"Madstones act on the same principle that a blotting paper does when absorbing ink, and there is nothing that makes a better one than baked pipe-clay. A new clay pipe, procurable for a cent at nearly any store where tobacco is sold, cannot be excelled by any madstone, no matter how great its reputation.

"The action can be clearly demonstrated by placing a common dry red brick in contact with the margin of a puddle of water and noticing what capillary attraction will accomplish. Therefore to be efficient the only necessity is for the stone to be porous and have strong adhesive and absorbent qualities. Nothing mysterious will be done away with, so that a mere fraction of the power used by locomotives today will propel his trains; that roads may be laid as rapidly as an army on the march can travel, and that passengers can be carried more safely than in the cars built upon models now in use.

"I have seen several that appear to be concretions, either vesical, renal orillary, and were found in the bladder, kidney or liver of some animal—those fluids contain will naturally by capillary attraction be absorbed by and into the substance applied, no matter what name you may give it.

"When a person is bitten by a reptile or dog supposed to be mad and the porous stone applied to the wound the blotting paper action begins, and the blood, saliva from the mouth of the animal and whatever poison these fluids contain will naturally be absorbed by and into the substance applied, no matter what name you may give it.

"The saying that if a stone sticks to the wound is poisonous and if it does not take hold there is no venom present is untrue. If the stone is clean and dry it will adhere when moisture is within reach till it becomes saturated.

"For instance, a new red brick will absorb one pint of water. After the venom has been taken into the circulation the madstone is worthless, but as the victim is usually filled with whisky or alcohol at the same time the stone is being used the spirits may counteract the effect of the poison.

"I know of a stone which has a wide reputation and makes a good living for the family owning it. They never let it go out of their sight, and when the victim cannot be taken to the stone one member of the family can be hired to take the stone to the victim. In addition to travelling expenses, they charge \$5 for the application and \$2 extra for each hour that the stone sticks.

"This stone is busy a large part of the time. Not long since the stone held to a man's leg for over 100 hours, yet the man died. His life could have been saved if dependence had not been placed entirely in the stone."—Medical Brief.

A "Touching" Story.

The young lady who had sat for a crayon portrait was not altogether pleased with the result. "It looks like me, of course," she said, inspecting it doubtfully, "and yet I think there are some things about it that ought to be changed."

She suggested that the eyes should have rather more of an upward look, that the right hand should be a little less prominent, that the hair should be made more wavy and that certain changes ought to be made in the drapery.

"That would require a great deal of retouching," said the artist, "and I should have to charge you about \$10 additional."

"Oh, dear!" she exclaimed with a pout. "I shall have to give it up. Papa won't stand my 'retouching' him to that extent."

A Case In Point.

Of Sergeant Arabin, who had not a clear method of speech, it is related that he said to one criminal, "Prisoner at the bar, if ever there was a clearer case than this of a man robbing his master, this case is that case." At another time he said, "Prisoner at the bar, you have been found guilty on several indictments, and it is in my power to subject you to transportation for a period very considerably beyond the term of your natural life, but the court in its mercy will not go so far as it lawfully might go, and the sentence is that you be transported for two periods of seven years each."—London Globe.

Real Distress of Mind.

Dora—I'm in such distress of mind, and I want your advice. I am loved by three men, and I don't know which to accept. Clara—Which one has the most money? Dora—If I knew that, do you suppose I'd waste precious time running around for advice?

Something More Recent.

"What was the cause of this rumour?" asked the judge.

"Well, you see, judge," replied the policeman, "this man here and that woman there are married."

"Yes, yes, I know. But what other cause?"—Cleveland Press.

Setting Him Right.

"Er—really," began Mr. Chesty, "you have the advantage of me, sir. My memory, perhaps, is at fault, but"—

"No," interrupted Pepprey, "it isn't your memory, but your manners!"—Philadelphia Press.

Celebrities

Eugene V. Debs, Labor Leader and Socialist—Mrs. William T. Stead. Daniel C. Gilman—Sir Chentung Liang Cheng—Miss Clara Clemens. Adolphus Busch and the Earthquake.

EUGENE V. DEBS, who was classed by President Roosevelt in the now historic Sherman letter as an "undesirable citizen," along with Moyer and Haywood and E. H. Harriman, is labor leader, lecturer and bearer of the standard of socialism. He is fifty-two years of age and came into prominence about fifteen years ago as president of the then powerful American Railway Union. He has twice been candidate for president on the Socialist ticket. He was once asked what would be done with such captains of industry as Rockefeller, Carnegie, Havemeyer and the Goulds and Vanderbilts under a socialistic regime.

EUGENE V. DEBS.

"The action can be clearly demonstrated by placing a common dry red brick in contact with the margin of a puddle of water and noticing what capillary attraction will accomplish. Therefore to be efficient the only necessity is for the stone to be porous and have strong adhesive and absorbent qualities. Nothing mysterious will be done away with, so that a mere fraction of the power used by locomotives today will propel his trains; that roads may be laid as rapidly as an army on the march can travel, and that passengers can be carried more safely than in the cars built upon models now in use.

"I have seen several that appear to be concretions, either vesical, renal orillary, and were found in the bladder, kidney or liver of some animal—those fluids contain will naturally by capillary attraction be absorbed by and into the substance applied, no matter what name you may give it.

"When a person is bitten by a reptile or dog supposed to be mad and the porous stone applied to the wound the blotting paper action begins, and the blood, saliva from the mouth of the animal and whatever poison these fluids contain will naturally be absorbed by and into the substance applied, no matter what name you may give it.

"The saying that if a stone sticks to the wound is poisonous and if it does not take hold there is no venom present is untrue. If the stone is clean and dry it will adhere when moisture is within reach till it becomes saturated.

"For instance, a new red brick will absorb one pint of water. After the venom has been taken into the circulation the madstone is worthless, but as the victim is usually filled with whisky or alcohol at the same time the stone is being used the spirits may counteract the effect of the poison.

"I know of a stone which has a wide reputation and makes a good living for the family owning it. They never let it go out of their sight, and when the victim cannot be taken to the stone one member of the family can be hired to take the stone to the victim. **Complete Report of Marwick-
Mitchell Co. of City.**

counts as may not be collected.

Electric Light Stores for Sales. This asset is fully described by its title.

Taxes and Assessments. At October 31, 1906, the amount due for taxes and assessments on the leviess of 1896-1905 was \$25,038.18. It was the amount remaining unpaid on a total levy of \$224,358.26, or a little more than 15 per cent. of the whole. The amount is divided among the following funds:

Current expense fund.....	\$16,457.98
Sinking fund.....	1,916.59
Bridge fund.....	64.23
Library Fund.....	54.99
	\$18,988.70

Sidewalk assessments..... \$3,268.83
Paving assessments..... 7,900.29
Sewer assessments..... 4,880.26

\$16,049.48
\$35,038.18

The total was verified by an examination of the records in the offices of the County Auditor and County Treasurer.

While this amount is nominally due there is no probability that all of it will be collected. It became necessary therefore to make an estimate of the amount that may be expected to be paid to avoid putting on the books an asset which could not be realized. Before making this calculation we consulted with a number of the City Officials and others whose judgment on the matter was of value. The result is shown in the following statement:

	Amount
Total	Considered
Unpaid.	Collectible
1896..... \$ 1,206.30	None
1897..... 122.40	None
1898..... 1,63.73	None
1899..... 1,607.87	None
1900..... 2,692.91	None
1901..... 1,951.10	\$ 45.77
1902..... 1,052.71	223.18
1903..... 7,585.69	896.42
1904..... 3,670.49	1,835.24
1905..... 13,584.78	11,984.78
	\$35,038.18
	\$15,497.39

Of the unpaid taxes of 1901 and 1902 we considered 25 per cent. good. The tax of 1903 included a levy of \$4,000 for the Laurel Street improvement, none of which will probably be paid. We have allowed 25 per cent. of the remainder. We have allowed 50 per cent. of the tax of 1904 and all but \$2,000 of the tax of 1905, that amount being more than enough to cover the average default of the ten year period, excepting the one item of \$4,000 mentioned. This estimate probably gets the assets of Taxes and Assessments to a realizable figure. It is possible that more than we have estimated may be collected, in which case the proper adjustment must be made on the books.

In addition to the unpaid Taxes and Assessments considered above there remains unpaid \$12,459.58 from the leviess of 1905 and earlier years. We have not taken these into account as in many instances the amount due exceeds the value of the property concerned and the collection of any portion of it is exceedingly doubtful.

We learned that none of the special assessments against County and School District property have been paid with the exception of \$180 for Sidewalk assessments of 1901 which was paid during our investigation. We would suggest that the City Clerk be instructed to bill on the County and the School District for the amounts delinquent and have any question of the validity of the assessments settled at once.

The City's proportion of delinquent Personal Taxes is \$959.75, but \$817.33 is prior to the levy of 1905 and the whole amount is a very doubtful asset.

Deferred Assessments. The method of handling special assessments has been to prepare assessment rolls, specifying the improvement to be made, the property to be assessed, the amount of the assessment and the terms of payment. The assessments for sewer work have been payable in three annual installments, those for paving and sidewalks in one payment. The rolls are filed with the County Auditor and the assessments are spread on the tax records as payments become due, hence until the last installment is payable there is a portion of the assessments not actually levied. We are advised, however, that the assessments become a lien on the property as soon as the rolls are filed. Because of this and for the further reason that the improvements have been made and paid for we deem it proper to include the total of deferred assessments as an asset. They will become due as follows:

Sewers 1904 assessment..... \$ 5,936.32
Sewers 1905 assessment..... 712.59
Sewers 1906 assessment..... 2,630.66
Sidewalks 1906 assessment..... 2,597.87
Paving 1906 assessment..... 3,151.28

Total to be levied in December, 1906..... \$14,944.12
Sewer assessment due in 1907..... \$ 274.65
Sewer assessment due in 1908..... 2,030.06

\$19,716.83

Sinking Fund. The Sinking Fund is operated in compliance with Section 57 of the Charter, which says:

"In order to provide for the certain payment of the bonds and debts of the City the Council shall create, establish and maintain a Sinking Fund."

Under the section the Sinking Fund receives revenue from the following sources:

All of the one mill levy for the payment of bonds.

Any money raised from taxes to pay interest on bonds, in excess of the amount of such interest.

All revenue of the City not otherwise appropriated.

The balance in the Sinking Fund at November 1, 1896, was \$1,685.80. During the ten years to October 31, 1906, \$19,732.44 additional of interest on or is due account of interest on investments, a total of \$20,789.24. During the same period bonds have been redeemed to the amount of \$7,000 leaving a balance in the fund of \$13,789.24. This amount is re-

presented by a Certificate of Deposit issued by the First National Bank of Brainerd, July 26, 1906, \$13,686.59. Interest accrued to October 31, 1906..... 102.65

\$13,789.24

The fund is in the charge of a Board of Sinking Fund Commissioners composed of three persons. Section 60 of the Charter requires that if any part of the fund is deposited with any bank or banker a bond must be deposited with the City Treasurer of an amount at least double the amount of the deposit. This requirement has not been complied with.

Capital Assets. These represent the value of property belonging to the City. There was no record of them on the books and at our request the Council appointed a special committee to prepare a list of them and place a valuation thereon. The list is as follows:

City real estate and buildings..... \$21,700.00
House and equipment..... 5,731.20
Library..... 15,600.00
Electric light plant..... 43,540.76
Departmental equipment..... 3,015.00

\$88,986.96

With the exception of the valuation of the Electric Light Plant, to which we shall refer later, we have accepted the valuations of the Committee. It was composed of men eminently qualified to do the work and we are satisfied from personal observations that the values are conservative.

The separate items in the classification given above are as follows:

City Real Estate and Buildings. Gregory Park..... \$20,000.00
City jail (building only)..... 1,500.00
Dumping ground (40 acres)..... 200.00

\$21,700.00

House and Equipment. Central hose house, building only..... \$ 1,000.00
Third Ward hose house, land and building..... 1,000.00
Fourth Ward hose house, land and building..... 500.00
Equipment, hose and nozzles..... 1,915.00
Hoses, trucks and sleds..... 550.00
Teams..... 350.00
Furniture..... 122.00
Ladders..... 80.00
Fire tools..... 67.75
Harnesses and blankets..... 70.00
Tools and feed..... 36.45

\$1,731.20

Library. Real estate and building..... \$13,500.00
Books..... 1,500.00

\$15,000.00

Electric Light Plant. Land and building..... \$ 1,800.00
Transmission lines..... 31,418.38
Machinery, tools and supplies..... 10,322.38

\$43,540.76

The Schedules of this property submitted to us gave a total valuation of \$57,454.40. In them the Transmission Lines, Machinery, etc., were listed at cost prices notwithstanding that they had been in use for some years. It is well known that electrical equipment is subject to a rapid depreciation and we therefore did not feel justified in accepting the values suggested. After due consideration we have reduced them to the extent of 5 per cent. yearly depreciation for five years, or 25 per cent. in all. The adjustment on the several items is as follows:

Valuation suggested.....
Depreciation.....
adjusted.....
Transmission lines..... \$41,891.17
Machinery, tools, etc..... 13,763.23
Land and Bldgs..... 1,800.00

\$57,454.40

The item Transmission Lines includes 929 poles, 741,954 feet of wiring and all the appliances needed in the transmission of current from the Plant to the Consumer. The item Machinery, Tools, etc., includes the value of Water Wheels and the other machinery and tools used for the production of Electric Current. The item Transmission Lines includes 929 poles, 741,954 feet of wiring and all the appliances needed in the transmission of current from the Plant to the Consumer. The item Machinery, Tools, etc., includes the value of Water Wheels and the other machinery and tools used for the production of Electric Current.

Departmental Equipment. Streets, sidewalks & bridges department..... \$2,045.00
City engineers department..... 360.00
City fire department..... 559.99
City Hall furniture and fixtures..... 360.00

\$3,015.00

City Orders and Accounts Payable. The files of paid and cancelled orders were so incomplete that in making this part of the examination we were compelled to have recourse to the stubs of orders. These were checked against the payments authorized by the Council, and the Treasurer's Cash Book. The Orders unpaid were verified by a Register kept by the Treasurers. The orders outstanding at October 31, 1906, amounted to \$35,545.57 and there were besides items of October expense to the amount of \$5,225.24 that were not ordered paid until November 12, but which we have taken up as Liabilities at October 31. The distribution of the outstanding orders covering the several funds was as follows:

City expenses..... \$10,669.46
Streets, sidewalks & bridges..... 13,509.32
Fire protection..... 9,663.16
Lighting..... 796.22

Bicycle path..... 17.10

Electric light..... 263.33

\$35,545.57

Accounts payable..... \$ 5,225.24

Total current liabilities..... \$40,770.81

Accrued Liabilities. Interest on bonds..... \$ 1,179.16
Interest on sewer warrants..... 40.71
Hydrant rental..... 2,050.00
Power rentals..... 500.00

\$4,469.87

Under a contract with the Minnesota Water Company the City pays \$6,150 per annum for Hydrant Rental. It was paid to July 1, 1906, and the amount \$2,050 is the proportion accrued to October 31. The Power Rental is one-third of \$1,500, the yearly amount payable for water power at the Electric Light Plant, under a contract with the Northwestern Paper Mill Company. The rental was paid to July 1.

Due to Sinking Fund. It appears from the statement of Taxes given in Exhibit "F", Schedule "2", that in the ten years 1896-1905 there was levied for the

Sinking fund, less rebates..... \$18,578.95

Received in settlements with County Treasurer..... 16,662.36

Balance unpaid..... \$ 1,916.59

In stating the present liability to the Sinking Fund we have made the same allowances that are described in our comments on Taxes and As-

sessments, giving \$941.39 as due to the Sinking Fund from taxes likely to be collected.

Bonded Indebtedness. The total bonded indebtedness of the City at October 31, 1906, was

Electric light bonds..... \$ 60,000.00

Refunding bridge bonds..... 25,000.00

Sewer bonds..... 15,000.00

\$100,000.00

Of the Electric Light Bonds \$40,000 bear interest at 6 per cent. per annum, payable in July and January of each year and are due January 1, 1908. \$20,000 bear interest at 6 per cent. payable in March and September and are due March 1, 1909, to January 1, 1910. \$10,000 bear interest at 6 per cent. payable in July 1, 1899, to July 1, 1900. **9,808.34**

Part of amount paid in November, 1897, to Minnesota Water Co. for hydrant rental for period January 1, 1897, to January 1, 1898. **2,625.00**

\$14,219.33

Cash in Hands of Treasurer.

\$23.14. The Treasurer's report for the fiscal year ending October 31, 1896, showed the above cash balance which was verified by a statement from the bank.

Accounts Receivable. **\$1,162.05.**

This amount represents the collections from Electric Light Customers after November 1, 1896, for current supplied before that date.

Taxes 1895 and prior. **\$14.632.06.**

There were collections to this amount after November 1, 1896, for taxes levied in 1895 and earlier years.

Electric Light Stores. **\$1,000.**

This amount represents the value of Electric Light Stores on hand at November 1, 1896, according to an estimate made by the City Clerk and City Treasurer who held office at that date.

The Sewer Bonds were issued under authority given by the Legislature, laws of 1887 C158, for the purpose of constructing a system of sewers. They are dated April 1, 1887, are due April 1, 1907, and bear interest at 6 per cent. per annum payable in October and April of each year.

These comprise all the assets and liabilities of the City which were disclosed by a diligent and careful examination. The assets stated will ultimately be greater or less according to the amount finally collected on Taxes and Assessments. It may be larger or smaller than the amount we have estimated. Owing to the condition of the books it is possible that some items of assets or liabilities as at October 31, 1906, have not been discovered. If such should prove to be the case they should be taken up on the books when they appear.

Revenue and Expenses.

In Exhibit "B" we give a detailed statement of the revenue of the City from November 1, 1896, to October 31, 1906, and in Exhibit "C" a similar statement of the expenses. Exhibit "I" is a statement of the result of the operation of the Electric Light Plant for the ten years. From these three statements we may compile a summary of the relation of Revenue to Expenses during the period, as follows:

Total revenue from taxes, assessments, licenses, etc., as per Exhibit "B"..... \$453,412.43

Revenue of the electric light plant, Exhibit "I"..... 218,899.15

Total revenue..... \$667,411.58

Total expenses, other than electric light plant operation as per Exhibit "C"..... \$484,077.74

Electric light plant expenses, Exhibit "I"..... 185,730.54

TO SELECT THE DEERWOOD SITE

Fish and Game Commission Will
Visit Deerwood in June to
Inspect Sites

IMPROVEMENT AT GLENWOOD

Much Work Will be Done in the
Fish Hatchery Line by State
This Year

S. F. Fullerton, superintendent of fish hatcheries under the Minnesota Fish and Game Commission, was in the city yesterday afternoon and stated that the commission would meet at Glenwood June 11th, and immediately after the meeting there will come to Deerwood to inspect sites for the hatchery. The plans for the Deerwood hatchery were considered at a recent meeting of the commission in St. Paul but no definite action was taken. The appropriation, \$6,000, is small and the commission is proceeding cautiously. Their first efforts will be directed to obtaining a suitable site and the less the site costs the larger can the commission plan on spending on the building.

There will also be expensive improvements in the St. Paul and Glenwood hatcheries. At the latter place they will include the erection of a dwelling for the employee of the institution and the completion of the trout ponds commenced last year.

How Often Should a Piano be Tuned?
The oftener the better for the piano. The two chief reasons why a piano gets out of tune are changes in temperature, and hard usage.

Any piano should be tuned at least twice a year.

Pianos used by teachers and musicians should be tuned much oftener.

Nothing will injure a piano more than to let it remain out of tune.

A piano allowed to "run down" may need several tunings to put it in good condition.

F. A. Handrahan,
Piano Tuner.

GARDNER TRIAL TODAY

Trial of Geo. E. Gardner, charged with permitting minors to frequent his saloon is before a jury. Geo. E. Gardner, charged with permitting minors to frequent his saloon on Laurel street, whose trial was set for 10 o'clock a. m. today, in municipal court demanded a jury trial. The following jury was empaneled: Chas. Mudge, H. I. Cohen, S. Engbretsen, R. Parker, F. S. Parker, K. S. Bredenberg. The trial was continued till 1 o'clock to select the jury and is still in progress at the time of going to press.

EDITORS DID NOT LIBEL JUNIORS

Editors of Sophomore Squirt were given Mock Trial at High School Thursday

VERDICT OF NOT GUILTY

Handsome Picture Presented the School by Senior Class—

Accepted for School

An interesting mock trial took place at the high school rooms Thursday evening. The junior class charged Quinn Parker and Fred DuBois, editors of the Sophomore Squirt, with malicious libel and they were arraigned before George McCullough, as presiding judge, and a jury of their peers that evening. Dorothy Hannaway appeared as counsel for the plaintiffs and Arthur Clouston conducted the defense. Roy McGinnis officiated as sheriff and Sarah Irwin occupied the position of clerk. The trial was a spirited one and ably conducted. The jury after deliberation decided that the editors were not guilty of malicious intent to slander the juniors and they were acquitted.

After the trial Miss Laura Johnson, president of the senior class, in behalf of the senior class presented the school with a handsome picture. The gift was accepted in behalf of the school by Miss Dorothy Hannaway, president of the junior class.

NOON IN BRAINERD.

What is Going on in Town When the Clock Strikes 12.

Noon, the dinner hour, the hour of comfort, of pleasure and relaxation—the hour in the twenty-four which comes to men and women of every station with greater similarity than the hour of any other function in life.

Promptly as the clock strikes 12 in Brainerd the shadows on anxious faces turn to lines of good will, and if villainous hot bread, pies, splices and other indigestibles were excluded there would be no such words as dyspepsia or indigestion in the dictionary.

But the contrary is true, and medical science has to step in and aid the man or woman who has been too busy to pay proper attention to health.

The greatest step forward in medical discovery is Mi-o-na, which cures all stomach and digestive troubles.

In hundreds of the best homes in Brainerd and adjoining towns the handy little tablets, so pleasant to take, yet effective, have given quick and lasting relief in indigestion and that disagreeable full feeling after eating.

Mi-o-na acts very gently. Much of its wonderful power over indigestion comes from its uniform but sustaining action. The required stimulating and strengthening is given to the important organs of digestion without producing the slightest weakness or reaction.

A 50-cent box lasts for couple of weeks and will ward off a dozen attacks of indigestion. H. P. Dunn & Co. give a guarantee, absolute and unqualified, with every box of Mi-o-na to refund the money if it does not give satisfaction.

THE KIND THAT SUITS

Not the kind that gives you fits or gives you the appearance of wearing a stout man's size when you require a suit of moderate proportions.

Clothcraft Clothes do not do these things. Clothcraft Clothes give you an appearance of style because they fit perfectly—a 34 inch waist measures 34 inches, first and last; the arm sizes do not cut or pinch because the tailors know how to cut, shape and sew to prevent these faults, and there are no wrinkles in the coats—where they don't belong.

It is details like these that show the superiority of CLOTHCRAFT. Its makers perfect the many points that most tailors overlook—they know how to make clothes fit the man—the thin man and stout man—and do not depend upon the man to fit the clothes. Then add to this care the selection of always all wool material, the careful shrinking, the up-to-the-minute designing and you have Clothcraft—the clothing which exhibits real clothing knowledge, and which should lead you to be a Clothcraft believer.

And CLOTHCRAFT wearers are not only well dressed, but they are not required to waste money. Thorough system and care have enabled the makers to keep their prices low.

J. F. MURPHY & CO.

FIVE WORKMEN KILLED.

Dozen Others Injured by Explosion in a Packing Plant.

Chicago, May 24.—Five workmen were killed and a dozen others were seriously injured when an ammonia pipe exploded in the beef killing department of Armour & Co.'s plant at the stock yards. The building was full of workmen at the time and the deadly ammonia fumes, escaping from under high pressure, penetrated through every department in the building in such a short time that twenty of the men were overcome before they could make their escape to the fresh air. All but five of these men were dragged from the place by the companions in such a serious condition that it was necessary to take them to a near-by hospital.

An ineffectual effort to search for dead in the interior of the building was made by employees wearing safety masks, but they were driven back by the fumes and it was not until six

hours after the explosion that the first body of an unidentified man burned beyond recognition, was taken from the fourth floor. A few minutes later four other bodies were found, all of them having been burned in a horrible manner.

A search of the plant is still being made for more bodies, as all the men have not as yet been definitely accounted for.

All of the dead and injured were foreigners.

Students and Showmen Fight.

Lafayette, Ind., May 21.—Two hundred Purdue students broke up the performance in a circus side show and afterwards gathered to make an assault on the big show. A skirmish with circus employees followed in which a number of the students were badly battered up. No serious injuries were reported.

FORMAL COMPLAINT MADE

Independent Oil Dealers Seek to Oust the Standard From Minnesota.

St. Paul, May 24.—Independent oil dealers have taken the first direct step in their effort to oust the Standard Oil company from this state by filing a formal written complaint against the company. The complaint alleges a violation of the provisions of the so-called Hinton law passed at the recent session of the legislature, in that the company on May 13, for the purpose of destroying the business of its competitors, discriminated in the price of its oil among various communities in the state.

The Hinton law prohibits discrimination among communities in the price of oil. The price of the same grade of oil must be the same throughout the state, allowance being made for differences in the cost of transportation to the different localities.

The complaint was filed with Julius A. Schmahl, secretary of state, and in accordance with the provisions of the Hinton law was referred by him to the attorney general.

The complaint is filed by the Bartles Oil company, Joseph Bartles, president; the Penn Oil and Supply company, Charles W. Ralph, manager, and the Complanter Oil company, John H. Hull, manager.

More News From the New England States

If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only to refer to Mr. Alvin H. Stimpson, of Willimantic, Conn., who, after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. H. P. Dunn & Co. mwfwd

TRAMPS HOLD CONVENTION

Delegates Laud Roosevelt and La Follette and Endorse Foraker.

Chippewa Falls, Wis., May 24.—Speeches laudatory of President Roosevelt and Senator La Follette and an endorsement of Senator Foraker as a candidate for the presidency were features of the "national convention of tramps" held here. At the close of the convention the police ordered the "delegates" from the city. A popular resolution was one which condemned police methods in the large cities. Many of the numerous speakers condemned the existing organization of society.

Notice to our Customers

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. H. P. Dunn & Co. mwfwd

BY FALLING BUILDINGS.

Six Persons Killed and Seven Injured in Mexico City.

Mexico City, May 24.—Six persons have been killed and seven injured in this city within the past twenty-four hours by collapsing buildings. Two children were buried under the ruins of a house on Constance street. In a building in course of construction in Sabine street, four workmen were killed and seven injured. All of the killed and injured are of the poorer classes.

Mrs. S. Joyce, 180 Sullivan St., Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Cure. It cured me of a severe case of kidney trouble of several years' standing. It certainly is a grand, good medicine, and I heartily recommend it." H. P. Dunn & Co. mwfwd

MRS. M'KINLEY DYING

Widow of the Late President in a Critical Condition.

STRICKEN WITH PARALYSIS

Attending Physicians Declare That There Is No Hope of Her Recovery. Had Been Gradually Failing for Some Time.

Canton, O., May 24.—After a consultation at the McKinley home by Dr. E. O. Portman, the family physician of Mrs. William McKinley, and Dr. J. Eyeman, superintendent of the Massillon state hospital, a physician of wide reputation, a statement was issued that there were no indications that Mrs. McKinley could long survive the attack of apoplexy from which she is suffering. The doctors say, however, that they think dissolution will not come for a day or two. Mrs. McKinley is in a comatose condition and it is stated that there are no grounds for hope of a better turn.

Surgeon General Rixey, who has been summoned from Washington, will soon arrive here to do what he can to prolong the patient's life.

Dr. Portman after his visit to the McKinley home announced that he found a change for the better in Mrs. McKinley's condition. She was then in a semi-conscious state. When spoken to she opened her eyes slightly. Dr. Portman said the change was not such as would lead him to expect any great improvement; neither did he think that a fatal turn could be expected before morning. So confident did he feel on this point that he said that he did not expect to remain at the McKinley home during the night or to make any other calls unless requested by message to do so. He regarded her condition as satisfactory as could be expected under the circumstances, but at the same time could predict only a survival of a few days at most, judging from the present state of the patient.

Watched Over by Her Sister.

Mrs. Barber, sister of Mrs. McKinley, is spending the night at the McKinley home.

Telegrams from all parts of the country have been pouring into Canton anxiously inquiring as to Mrs. McKinley's condition and evincing widespread sorrow over the announcement of her critical illness.

Mrs. McKinley has been ill nearly all winter, having suffered a severe attack of grip some months ago, followed later by bronchitis. The physicians say that in her weakened condition she was an easy victim to the disease with which she has been stricken. She is nearing the sixtieth anniversary of her birth and, as is well known, has long been in feeble health. Mrs. McKinley gave up knitting recently and this was taken as an indication that her hold upon life was slight, as ever since the tragic death of her husband she has found solace in knitting slippers for friends and invalids. Of late Mrs. McKinley has been obliged to keep close within doors, but before that she was in the habit of taking daily walks and of riding to the cemetery with flowers to place upon the casket which contains the body of her late husband.

Orino Laxative Fruit Syrup is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Get the booklet and a sample of Orino at H. P. Dunn & Co. mwfwd

Strike Practically Ended.

Buffalo, N. Y., May 24.—The strike of inside freight handlers at the docks was practically ended when the Western Transit company conceded the men an advance of 3 cents an hour to the 20-cent scale for which the men struck.

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Brainerd Citizen Can Afford To Ignore.

Danger signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys secrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

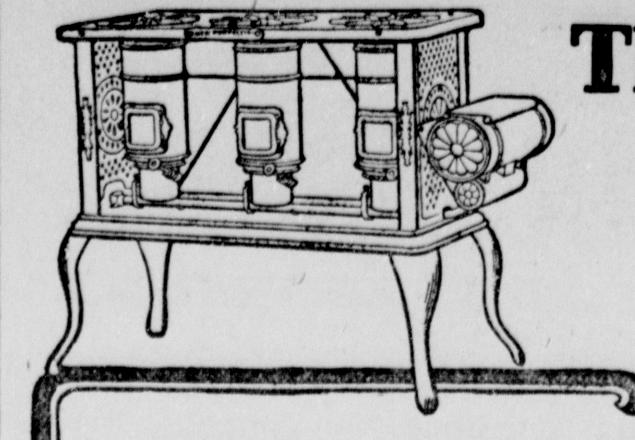

Danger signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Brainerd proof:

Philip O'Neal, of 516 Norwood St., Brainerd, Minn., says: "Brainerd people have seen in the local papers the testimony I gave in 1890 recommending Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidneys were too frequent and much disordered. The trouble became worse and worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no other.

THE NEW OIL STOVE

Different from other oil stoves. Superior because of its economy, cleanliness, and easy operation. The

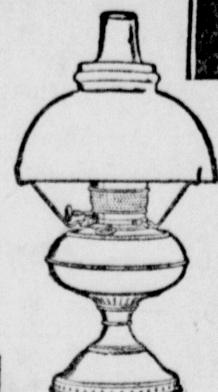

NEW PERFECTION WICK BLUE FLAME OIL COOK-STOVE

saves fuel expense and lessens the work. Produces a strong working flame instantly. Flame always under immediate control. Gives quick results without overheating the kitchen. Made in three sizes. Every stove warranted. If not at your dealer's, write our nearest agency for descriptive circular.

THE Rayo Lamp

is the best lamp for all-round household use. Made of brass throughout and beautifully nickelated. Perfectly constructed; absolutely safe; unexcelled in light-giving power; an ornament to any room. Every lamp warranted. If not at your dealer's, write to our nearest agency.

STANDARD OIL COMPANY (INCORPORATED)

CIVIL WAR VETERAN a Suicide.

Mohrstadt, seventy-three years of age, a veteran of the Civil war who was formerly business manager of the St. Louis Anzeiger for twenty-five years, committed suicide by shooting. For some time he had been suffering from an impairment of power of speech.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. H. P. Dunn & Co. mwfwd

Destroyed by Lightning.

Janesville, Wis., May 24.—Lightning destroyed \$10,000 worth of property on the McDonald farm near here, including four blooded horses, forty sheep, barns and farm implements.

Will Retire From Politics.

New Orleans, May 24.—Manuel Bonilla, former president of the Republic of Honduras, left New Orleans on the steamer Anselm for Belize, British Honduras. Bonilla has declared his intention of retiring from politics and says he will devote himself entirely to his plantation.

NICK EMMERICK.

Cooper's New Discovery has taught me many things. Not least of which is that parasites or tape worms as they are called are responsible for an immense amount of suffering. Thousands of these creatures have been brought to me by people who have taken the New Discovery and know that an immense amount of supposed stomach trouble is caused in reality by one of these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does so. The following is a fair sample of the symptoms as experienced by an individual thus affected:

"I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good night's sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue. I heard of the wonderful benefits that were being derived from Cooper's New Discovery, and decided to try it."

"The horrible tape worm, sixty feet long that had been sapping my life away, passed from my system alive and squirming after I had taken three doses. Now I have a splendid appetite, every trace of stomach trouble has disappeared and my digestion is strong every day." Nick Emmerick, 1344 Louis Ave., Milwaukee, Wis.

We are authorized agents for the Cooper medicines. Call and let me know more about them.
